Build OB/GYN Certification Readiness with SonoSim's OB/GYN Test Prep

Sonography programs preparing graduates for OB/GYN clinical practice and ARDMS certification need more than a question bank. SonoSim delivers integrated OB/GYN education and certification-prep that combines test preparation with a full ecosystem of educational tools.

Learners Build Exam Readiness & Clinical Confidence

SonoSim's OB/GYN Test Prep combines a 1,350 QuestionBank and mock exam generator with a comprehensive learning platform, giving learners the tools to recognize sonographic anatomy, identify pathology, and confidently answer exam questions.

1,350-Question Bank

Peer-reviewed questions mapped and weighted to match the ARDMS OB/GYN exam

Unlimited Mock Exams

Build confidence with unlimited attempts on accurately weighted ARDMS OB/GYN mock exams.

Built for Exam Day

Targeted review that builds pattern recognition, clinical reasoning, and confidence

Key Elements of SonoSim OB/GYN Test Prep

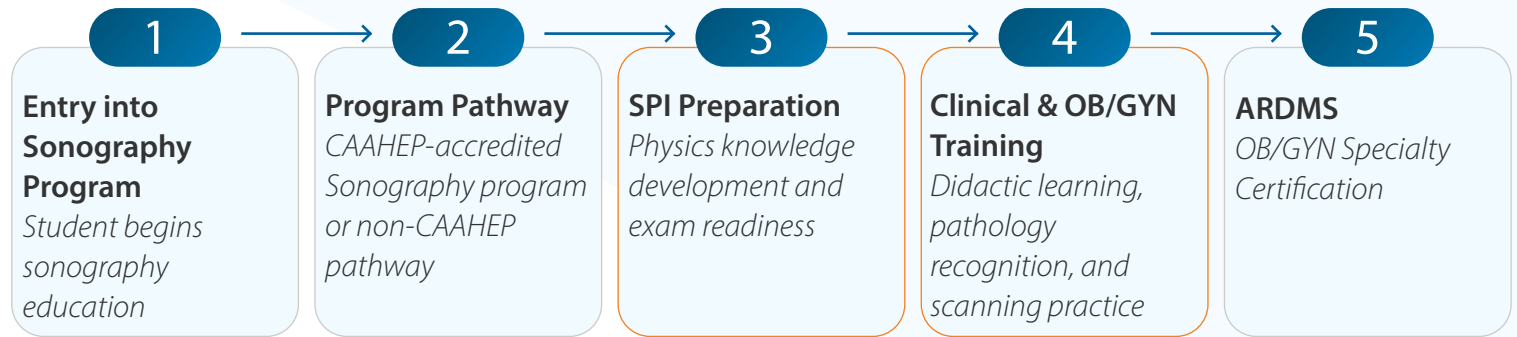

- ✓ **Interactive Quizzes:** Focused practice on the specific OB/GYN content domains where learners need the most improvement. Organized to match ARDMS OBGYN exam topics.
- ✓ **Multiple Choice Questions (MCQs):** Each quiz contains standardized, MCQs with a single best answer, detailed rationale, and explanation of incorrect options
- ✓ **Multimedia Format:** A balanced mix of text-, image-, and video-based questions reinforces sonography knowledge and image interpretation skills
- ✓ **Mock OB/GYN Exams:** Unlimited, randomized, weighted, and dynamically generated exams that mirror the ARDMS OB/GYN exam structure
- ✓ **Peer-Reviewed:** Rigorous peer-review involving subject matter experts, including practicing OB/GYN sonographers and ARDMS-certified educators

Certification Readiness. Clinical Relevance. Program Value.

The Sonography Student Journey to ARDMS OB/GYN Certification

From foundational physics through specialty certification, SonoSim supports learners at every stage of the journey.

Where SonoSim Adds Value to OB/GYN Certification Pathways

More than test prep, SonoSim pairs high-yield exam practice with real pathologic scanning and structured educational content, helping students build clinical skill as they prepare for certification.

1,350-Question Bank & Mock Exams

- Peer-reviewed questions and weighted mock exams mapped to the ARDMS OB/GYN exam

Didactic OB/GYN Courses

- Interactive, peer-reviewed courses build the foundational knowledge students need before exam prep begins

Real Pathologic SonoSimulator® Cases

- Unlimited scanning of real pathologic OB/GYN cases connects exam content directly to hands-on image recognition

Performance Tracking

- Educators monitor progress across OB/GYN content domains to identify weak areas and target support

SonoSim helps sonography programs prepare students not only to pass SPI and OB/GYN exams, but also to build clinically relevant knowledge and provide standardized virtual scanning access to real pathologic cases.

See it in Action!
